OFFICE MEMORANDUM

Sub: Sanction of O&M Costs in NGRBA Projects

This has reference to provision of operation & maintenance (O&M) in projects sanctioned under the National Ganga River Basin Authority (NGRBA). As you are aware, it was decided by the Authority that the cost of O&M for the first 5 years would be shared between the Central and the State Governments on 70:30 basis, subject to a review at the end of 2 years. Accordingly, provision for O&M has been made in a number of sanctioned NGRBA projects.

IT, Delhi has recently been requested to undertake preparation of Guidelines for use by independent agencies for appraisal of DPRs, to ensure consistency in the projects being appraised and sanctioned. These Guidelines would, inter-alia, include a range band of O&M costs for various components of projects. Thus, it would be appropriate that pending finalisation of these Guidelines, no expenditure is incurred on O&M and the sanction already given for O&M costs is kept in abeyance till further advice. This will not affect the progress of projects, as O&M costs would be required only after completion of these projects.

DO.No.A-28011/1/98-NRCD.II

Dear

The sustainability of river Action Plans largely depends upon the capacity of the Municipalities/Corporations to operate and maintain the assets created under the Plans. Operation & maintenance of the assets created under the Ganga Action Plan has suffered significantly due to the non-availability of adequate funds with the local bodies entrusted with the task.

2. It has now been decided that unless the viability of the concerned Municipality/Corporation is established, detailed project reports of various schemes under the Action Plans for such a town will not be approved.

1) 4B. In order to expedite sanction of these programmes, I would request you to send the following information latest by 20.7.98 in respect of each Municipality/Corporation in the river Action Plan towns of your State:

- i) Immediate availability of land for Action Plan schemes.
- ii) a) Commitment for O&M of Action Plan assets.
b) Details of property tax recovered in each town
c) Income and expenditure statements of the last 5 years town wise and
d) Plans to reduce the deficit.
- iii) Status of constitution of Citizen's Monitoring Committee in each town.
- iv) Arrangements of maintenance of existing branch/lateral sewerage system as also that of the management of urban solid waste.

v) Status of maintenance of toilet complexes constructed under river Action Plans as well as other programmes of the Central State Governments.

With regards.

Yours sincerely,

(Malti Sinha)
